Olfen, 31.03.2025

Product Gel, flavours: black currant, watermelon

Dear wholesalers and customers,

We are very sorry to inform you, that the packaging of the gels without caffeine, namly BLACK CURRANT and WATERMELON have a misprint on the front.

The foil company used mistakenly the print template (black-grey) of the COLA, LEMON, ORANGE gel version!

So it has the writing „Carbohydrate gel with caffeine" on the front.

That is of course not true!

Black currant with EXP. 07.12.2026 and LOT 77838 and
Watermelon with EXP. 06.12.2026 and LOT 77834

have definitely NO CAFFEINE in the gel!

The back of the sachets have the correct nutritional information!

We apoligize for this mistake.

Kind regards and best wishes

S. Bodingbauer
